INTRODUCTION

When Lord Sandwich placed a piece of meat between two pieces of bread and pronounced it his favorite method of eating, he could hardly have been conscious of the revolution in habit he was starting. Nor could he have known how large a part of the world would agree with him. Neither is it likely that he would recognize some of the ways in which women have used his idea to fulfill their own purposes, for certainly the modern party and cocktail sandwich bears little resemblance to the clumsy one Lord Sandwich was served.

Today's sandwiches are served for almost any purpose and on all occasions, from the rushed noonday lunch and evening snack, to the formal tea or formal dinner with the cocktails. They are as familiar to the social butterfly as to the man who carries a dinner pail and they vary in size and shape from the canapé mouthful to the open-faced sandwich that fills the luncheon plate. The modern hostess is ever on the alert for new ideas in form and fillings. To her, this book comes as a most welcome addition to her culinary library and an opportunity to add to her reputation for attractive entertaining.

Radishes cut into thin slices.

Stalks of endive stuffed with Roquefort cheese paste.

Sieved hard-cooked egg yolks.

Finely chopped hard-cooked egg whites or egg wedges.

For the sandwich loaf, fillings must harmonize in flavor and contrast in color and texture

PARTY SANDWICHES

Filling for ribbon, checkerboard, tile or rolled sandwiches should be of the type which will become firm when chilled in order to hold the pieces of bread together. Savory butters of all kinds and cream cheese mixtures are especially good for this purpose. Cream cheese may be mixed with fish paste, olives, pimientos, parsley, chives, chopped nuts, lemon juice or herbs to give variety in color and flavor. A small amount of vegetable coloring may be used to give delicate tints. Do not attempt to use salad mixtures for this type of sandwich.

6 tablespoons sugar
2 teaspoons cinnamon
4 slices bread, white or brown
Pecans

Cream butter, sugar and cinnamon together until smooth and well blended. Spread on bread and cut into strips, triangles, circles or other fancy shapes. Place a pecan half on center of each. Serve with fruit salad.

MOSAIC SANDWICHES

Cut thin slices of white and whole-wheat bread, and cut into fancy shapes. Spread half of each kind of bread with butter and desired filling. Cut small shapes from centers or corners of unspread slices with tiny cutters and put sandwiches together, using a white and a dark slice for each. If desired the tiny shapes cut from center of dark slices can be inserted into openings of similar shape cut in white slices and the white shapes inserted into the dark slices, rather than having the filling of sandwich showing through the opening. For instance, if a star has been cut from center of a top slice of whole-wheat bread it may be inserted in the star-shaped opening cut in a slice of white bread. The sandwich itself may also be star shaped. See p. 14.

Use white bread for top and bottom, with an unbuttered slice on top. Press layers together lightly to make a compact loaf. Chill and slice bread down across layers to make thin sandwiches.
